

1. What is HealthFund?

HealthFund is an accelerator funding source for healthcare startups. It promotes strategic investors to support innovative health care technologies to the biotech market. By providing an online platform where health care startups can display their objectives, goals, and research, HealthFund will greatly increase partnership funding from ideal capital needed to support the startup's initiatives.

Confidentiality between the partnering community and the startup will be facilitated through HealthFund's nondisclosure agreement notices provided to both parties. HealthFund understands to protect the intellectual property rights of the startup and aims to help the organization raise funds while securing the startup's technology.

2. What are the basics?

Provide a platform for startups to explain their technology and goals. Provide an area for strategic investors to get in contact with the startup and contribute to a funding initiative. Provide mutual non disclosure agreement for both the startup and the investor.

3. Why people fund projects?

Many investors will support projects in the fields they know well. Moreover this knowledge by the investor is also advantageous for the startup as they will be receiving support from an investor understanding their initiatives. By providing the informative platform through HealthFund projects will be supported by strategic investors understanding the startups initiatives.

4. Where do sponsors come from?

Funders typically will have a technical background in medicine, biology, engineering, robotics, but also the financial prowess to support a health care startups goals of bringing innovations to the market.

5. What do investors get in return?

Backers that support a project on HealthFund get an inside look at the creative process, and help that project come to life. They also get to choose from a variety of unique rewards offered by the project creator.

Rewards vary from project to project, but often include a copy of what is being produced or an experience unique to the project.

Project creators keep 100% ownership of their work, and HealthFund cannot be used to offer equity, financial returns, or to solicit loans.

6. What are the fees?

If a project is successfully funded, HealthFund applies a 5% fee to the funds collected for creators. Our payments processor will also apply payment processing fees (roughly 3-5%).

If funding isn't successful, there are no fees.

7. HealthFund Base?

We are an independent company based in San Diego, California. We spend our time improving the site, answering questions from backers and creators, and finding great new projects to share with you. Every day is an adventure — we get to experience projects as they happen! Say Hello or come work with us!
